

WE ARE MICHIGAN'S BEST!

The name **Foundation Authority** was derived from hard work and confidence to tackle any project and apply needed solutions.

Foundation Authority's experienced team of waterproofing and foundation specialists has combined their knowledge to provide our customers solutions, no matter how difficult or challenging the situation. Our professionals have a combined experience of **72 years** in the industry. Our pros are from different locations in Michigan which have given us an advantage of understanding diverse environments and respective working resolutions.

We utilize innovative solutions, cutting-edge equipment, and continuous education which makes us a leader in the industry. Foundation Authority was not the first company to install helical piers, however, we mastered piercing and structural repair. You can trust Foundation Authority to get the job done right. Call us for a no obligation estimate and quote.

10 REASONS PEOPLE TRUST FOUNDATION AUTHORITY

- 1 A+ Rating with BBB
- 2 Fully Certified
- 3 Licensed
- 4 Insured
- 5 Patented Systems
- 6 Highest Quality Products
- 7 Efficient and Minimal Invasive Repairs
- 8 25-Year Transferrable Warranty
- 9 No obligation Inspections/Quotes
- 10 Financing Available

Foundation Authority stands behind our workmanship, using only the highest quality products and materials, up-to-date tools, techniques, and technology available to rescue homes, condominiums, apartments, business, and historical buildings from being ruined by natural forces.

We have a solution for interior or exterior foundation problems before a structure becomes damaged even worse.

We can fix it by installing Piers, which minimize time spent installing a foundation, causes little disturbance to the soil, and transfers the weight of the structure, to soil deep in the earth that can bear the load.

Signs of Foundation Failure

- ✔ Doors and windows sticking
- ✔ Cracks in walls, drywall, or brick
- ✔ Misaligned doors, windows, or moldings
- ✔ Water leakage through cracks of walls
- ✔ Sinking foundation
- ✔ Seepage or moisture

YOU CAN TRUST FOUNDATION AUTHORITY

You know you've found a reputable contractor! With over **40 years'** experience, we've built a great reputation with thousands of happy customers and business partners.

Our team is trained, respectful and experienced and you can rest assured knowing that our work is guaranteed and comes with a transferrable **25-year** warranty for services we perform.

Jessica Smith

Thank you for the great work your crew did on lifting our garage foundation. Your crew worked through rain, snow, and sleet, which I admired and they had no words of complaint. They even scraped the ice off my drive to get started. I would not hesitate to tell my neighbors, who are thinking of having their garage foundation done, about your company.
